

Creative Technology Learning for Young Innovators

Small class sizes for better learning

Ages 6+  **Kampala, Uganda**

ABOUT NCS ACADEMY

At **Nestra Creative Studios Academy**, children learn technology by **building, creating, and experimenting**.

Our hands-on programs help young learners develop **digital skills, creativity,** and problem-solving abilities for the future.

OUR LEARNING PATHWAY

EXPLORE

Discover technology basics and digital creativity.

CREATE

Build projects using coding, robotics, and digital design.

INNOVATE

Develop advanced skills and create complex digital solutions.

OUR PROGRAMS

DIGITAL LITERACY & COMPUTER SKILLS

Ages 6+

Typing, computer navigation, file management, and digital safety.

CODING & PROGRAMMING

Ages 7+

Create games and animations while learning programming concepts.

ROBOTICS & STEM FOUNDATIONS

Ages 8+

Build and program robots while exploring engineering ideas.

DIGITAL ART & CREATIVE DESIGN

Ages 8+

Create illustrations, animations, and digital visual projects.

AI & GAME DEVELOPMENT

Ages 12+

Explore artificial intelligence concepts and interactive technology.

Skills Students Develop

Critical Thinking & Problem Solving

Students learn to analyze challenges and develop logical solutions using coding and technology.

Coding & Programming Skills

Students create games and interactive programs while learning programming concepts like loops, conditions, and variables.

Creativity & Innovation

Learners design digital artwork, animations, and technology projects that encourage creative expression and innovative thinking.

Teamwork & Collaboration

Students work together on coding projects and robotics challenges, communication, cooperation, and leadership skills.

Projects Students Create

Games

Learners design interactive games.

Robots

Learners build program robots.

Digital Artwork

Learners create digital illustrations.

Creative Tech Projects

Learners build original tech innovations.

LEARNING FORMATS

Weekend Classes

Saturday or Sunday Sessions

After-School Programs

Weekdays | 4 PM - 6 PM.

Holiday Tech Bootcamps

Special programs during school holidays

Private Sessions

Flexible one-on-one or small group learning

ENROLL IN 3 EASY STEPS

1 Register for a Free Trial Class

Experience our hands-on learning approach.

2 Choose Your Program & Schedule

Our team helps you select the best option.

3 Start Learning & Creating

Watch your child build skills, creativity, and confidence.
